Opposition No. 91208722

**MOTION ON CONSENT (a) TO PERMIT POST-PUBLICATION
AMENDMENT; (b) TO SUSPEND OPPOSITION; and (c) FOR
CONDITIONAL DISMISSAL OF OPPOSITION WITH PREJUDICE**

CaseWare International Inc. ("Opposer") and Openidea, Tecnologias de Telecomunicacoes e Sistemas de Informacao S.A., ("Applicant") hereby move to amend by post-publication amendment the identification in Application Serial No. 85/189,570, which application is the subject of the opposition; to suspend the opposition pending the review and acceptance of the amendment; and to dismiss the opposition with prejudice conditioned upon acceptance of the amendment.

Applicant requests that the description of claimed services in Class 42 in the Application Serial No. 85/189,570 be amended to read as follows: **"computer software development in the fields of communications and telecommunications; computer software technological consultancy in the fields of communications and telecommunications; consulting in the field of telecommunications technology; providing telecommunications planning and engineering services in the field of information technologies and networks and communications technologies and networks."** Because this proposed amendment is in the nature of a limitation and no re-

publication would be required, it is permissible. The rest of the identification will remain the same.

Opposer and Applicant also jointly move to suspend the above-referenced opposition pending review of the proposed amendment. The parties further consent that upon the approval and entry of the proposed amendment to Application Serial No. 85/189,570, the opposition and all claims asserted therein be dismissed with prejudice.
